-

OUR SERVICE FLOW

1-Arranging Vendors

We have a large unique network of small medium and large woven, knit manufacturing companies Also we have very good sourcing for fabrication, dyeing, and confection companies. We allocate the appropriate manufacturers to suit the products and the buyer's best interest.

2-Sample Development

We arrange samples and development of different types like salesman, Fit, pre-production and green seal etc. We arrange approval for samples and patterns, grading to all required size sets and production markers from our end.

3-Sourcing Fabrics

We help to get ahead by sourcing items on our buyers' behalf in both the local and international market. We control the quality of all fabrics and yarn inputs and coordinates the timing of their procurement, imports. All fabrics are tested for a high standard quality set by our customers to ensure product meet specifications.

4-Production Follow-up

We monitor manufacturing manually and technically, from the yarn –knitting or weaving –fabric developments to finish product and keep our buyers regularly updated with production status. We identify any risk factors in the production of garments and discuss the same factors with the manufacturer to overcome the problems.

5-Quality Assurance

We maintain international standard requirements from the yarn –Knitting & weaving –fabric process to finish product, and ensure that all production run in the meet standard.

6-Shipping Coordination

We review and check shipping documents to ensure they meet the buyer instruction provided by buyers L/Cs, well before the actual shipment arrival.

7-Inspection

We can conduct final Inspection and audit On behalf of our buyers when needed. We ensure 100% the shipment meets our buyer requirements and up to his standard.
